

## DQ MACHINERY

### QDS-500 DRILL STAND

The QDS-500 provides a heavy duty model in the range that is capable of securing mid to high power drill motors to drill holes of up to 500mm diameter. Featuring the compact and robust design characteristics of the smaller stands but combining it now with increased height and strength and a 'Fine Feed' mechanism, the 500 enables the professional driller to easily handle the more difficult drilling situations.

Available in 1m and 1.6m mast height.

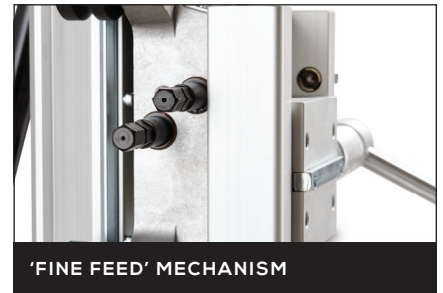

# SPECIFICATION DETAILS

- Alloy/Steel construction with rear mounted wheels.
- Winding handle operates all adjustment points
- 170mm long hold down fixing slot in base frame
- Mast Angle Adjustment from 10° Forward – 45°Rearward
